BUILDER'S PROFILE

Industry Collaborations

Working with Builder's Profile keeps your data more up to date than ever before, providing your clients with greater confidence in your professional standing. Quoting your BP Membership number in all correspondence, clients can easily find your Profile across these platforms:

Constructionline

For over 20 years Constructionline have been supporting thousands of businesses across the public and private sectors. Builder's Profile is joined Fortius alongside Constructionline in March 2020 and continue to provide all customers with access to extra benefits as opportunities to utilise both services are created.

COINS

With 30 years industry experience, COINS offers its clients a blend of consultancy, construction software solutions and services that deliver measurable solutions, with continually evolving and completely integrated software and technology.

The Builders' Conference

Essential intelligence for the Construction Industry since 1935, The Builders' Conference has been following a unique path as a not for profit-making trade association run by builders for builders.

Access ConQuest

Access ConQuest produce the Construction Industry's leading Estimating, Cost Planning and Surveying application. Access ConQuest and Builder's Profile 'partner' to deliver an industry-changing partnership that makes PQQ and Compliance information accessible to over 70% of the UK's main contractors.
